

AJA@™LSTC

Academic Grade

Job Readiness Work Ethic Score

Attendance Percentage

AJA@™LSTC is a value-added service to students and employers that rewards students by giving employers more than the typical academic grade on a transcript. Effective the fall semester of 2009, in addition to the academic grade, a job readiness work ethic score, and an attendance percentage is recorded for each class. The decision to include a job readiness work ethic score and an attendance percentage on the transcript was based on a survey of employers. Little if anything has received as much positive reaction from employers. With the Linn State Technical College mission being to "prepare students for profitable employment and a life of learning," this bold cutting-edge initiative is an unparalleled service to students.

Job Readiness Work Ethic Score Chart (Computer Screen)
