Technical Notes

Universe of institutions and accreditors	<ul style="list-style-type: none">• Only includes currently operating institutions participating in Title IV programs according to the March 2016 release of College Scorecard. May not reflect recent changes in Title IV participation or location.• Only includes primary institutional accreditor relationships as of March 2016, according to PEPS. May not reflect recent updates to status in PEPS.• Excludes secondary accreditor relationships and any relationships with more than one primary accreditor listed for the same institution in PEPS.• Excludes non-accredited institutions with small Title IV participating programs that are programmatically accredited by institutional accreditors (e.g., vocational programs offered by secondary schools).• FSA only calculates financial responsibility composite scores for private, non-profit, and for-profit institutions.• FSA only calculates 90/10 revenue percentage for for-profit institutions.
Aggregation from Unit ID to six-digit OPEID	<ul style="list-style-type: none">• Institution name - Name of school according to FSA Data Center. Imputes using IPEDS (AY 2012-13) name at largest main/branch campus if FSA name is missing due to recent closures or loss of Title IV certification.• # locations - Total number of all main/branch campuses corresponding to six-digit OPEID.• # undergraduates - Total of all undergraduates attending main/branch campuses corresponding to six-digit OPEID.• Predominant degree - Median predominant degree code associated with main/branch campuses corresponding to six-digit OPEID. Rounds up to highest integer (e.g., 1.5 rounds up to "Associate's" and 2.5 rounds up to "Bachelor's") equals "n/a" if Scorecard does not indicate a predominant degree for the majority of main/branch campuses. "Graduate" indicates at least half of main/branch campuses are graduate only.• Control - For each six-digit, OPIED, assumes all main/branch campuses have the same control.• MSI - Shows the sum of all main/branch campuses that are MSIs corresponding to the six-digit OPEID.• HBCU - Shows the sum of all main/branch campuses that are HBCUs corresponding to the six-digit OPEID.• % Pell - Mean share of Pell student, weighted by number of undergraduates at each campus.• Average net price - Mean average price, weighted by number students in IPEDS title IV financial aid cohort at each campus.• Graduation rate - Mean graduation rate, weighted by number of student IPEDS adjusted first-time, full-time cohort at each campus.• Earnings - Mean (unweighted) median and threshold earnings. Note for almost all institutions earnings is same across all campuses corresponding to the same six-digit OPEID. Due to changes over time in the six-digit OPEID to UnitID crosswalk, there are a small number of institutions for which earnings is different across campuses such that the calculated mean may not precisely measure the median or threshold earnings of the whole institution.• Financial Composite Responsibility Score and 90/10 Revenue Percentage - Assumes one-to-one correspondence between six-digit OPEID and 90/10 percentage. May contain repeating values because it does not take into account "school groups."
Linkage of source files	<ul style="list-style-type: none">• Data file generated by using six-digit OPEID to link PEPS (accreditation info and default rate), Title IV volume reports (FSA Data Center), and College Scorecard data.• Observations not matching with currently operating institutions on the College Scorecard were discarded.• Linkages could be affected by changes in the structure and operating status of institutions over time.• Six-digit OPEID generated by taking the second through sixth characters of the eight-digit OPEID. First digit ignored because it indicates third digit of branch campuses.
Aggregation from six-digit OPEID to accreditor and national figures	<ul style="list-style-type: none">• Measures aggregated according to the accreditor PEPS acronym corresponding to each six-digit OPEID.• National totals and averages do not equal the totals and average of accreditors because 118 institutions on College Scorecard not currently institutionally accredited according to PEPS (see note on universe of institutions).• For categorical variables, counts, and total \$ amounts (e.g., control, # undergraduates, Title IV volume), summed up across institutions. Excludes counts of missing values for each variable.• For ratios and averages (e.g., \$ Pell and median earnings), applied same weights as used for aggregation from Unit ID to six-digit OPEID (see technical notes above).
Financial Responsibility Composite Score	<p>A score greater than or equal to 1.5 indicates the institution is considered financially responsible. Schools with scores of less than 1.5 but greater than or equal to 1.0 are considered financially responsible, but require additional oversight. These schools are subject to cash monitoring and other participation requirements. A school with a score less than 1.0 is considered not financially responsible. However, a school with a score less than 1.0 may continue to participate in the Title IV programs under provisional certification. In addition, this lower score typically requires that the school be subject to cash monitoring requirements and post a letter of credit (equal to a minimum of 10 percent of the Title IV aid it received in the institution's most recent fiscal year).</p>
