Learning Path

Your progress

Learning path

This Learning Plan is an example of the way you can combine different activities and requirements into a unified learning path. While you could separate each of these out into individual courses, we've leveraged the sections within a single course to present the path.

1 2 3 4 5 6

ILT

A part of this learning plan is ongoing attendance at live training sessions. Sign-up for one of the sessions offered below. You will receive a confirmation message along with a reminder prior to the session. Attendance will be taken at all sessions so make sure you check-in to be marked appropriately.

Live Training Sessions

View all sessions

Monthly Training Virtual Meeting Room

Many eThink clients incorporate live virtual sessions into their learning ecosystem. Here you see one of our partners, Big Blue Button seamlessly integrated into Moodle.

Feedback Responses

Feedback Responses

This report lists all feedback selections by category, course, feedback item, and student. The question responses are loaded into a free text field (when building the question itself), one on each line. So, in the database the values are all in one field, delimited by a pipe. This report takes the feedback selection number and interprets that into the label that is associated with it. For questions that were not multiple choice, but checkboxes, those could not be parsed, so those are in their own column for purposes of parsing them after downloading into Excel.
